INCENSE STICKS

ABOUT US

Incense sticks are popularly used in Indian rituals. They are lit and offered to God. We offer incense sticks and cones which are made from aromatic ingredients. They have an everlasting effect and spread the fragrance in the entire room.

Our Incense Sticks are made from organic ingredients such as sandalwood, khus, unadulterated essence of rose, morning glory and other exotic floral fragrances, our incense sticks are refreshing and immediately create an aura of peace and devotion. We use no chemicals in the making of the incense sticks and burn for a long time. The sticks are visually appealing and have a protective cover to protect the contents of the stick. The incense sticks we export are packed in flat box packing, hexagonal packing and square box packing.
