

Chickpeas

India is the world's largest producer of Kabuli Chickpeas. Chickpeas also known as garbanzo bean or pois chiche or Channa. Channa is one of the earliest cultivated legumes. It is renowned for their delicious nut like taste & rich in protein content. Matured Chickpeas can be cooked and eaten cold in salads, cooked in stews, ground in to flour called gram flour, mostly used in cooking snacks Chickpeas are highly nutritious food that feature in Indian & Middle East dishes. Chickpeas are a rich source of protein, carbohydrates, dietary fibre and many essential minerals and vitamins.

Chickpeas
